DENMARK

After summer comes autumn and winter - and we love this wonderful time of year! We have been looking forward to welcoming you into our inspiring and captivating autumn and winter catalogue, where the warm and authentic atmosphere is amplified.

As autumn and winter arrive, we move indoors and decorate our home like a cosy den - a place for reflection and where the creative soul can unfold. We hold onto cherished traditions and enjoy knitting, baking, preserving, and fermenting.

We lounge in soft cushions, wrap ourselves in warm throws, relax in the glow of lit candles, and savour the breath-taking golden colours and burnt shades that indulge and enchant our senses. We slow down, clear our minds, and rejoice in all the splendour of the season.

In the kitchen, our focus is on creating a warm and down-to-earth atmosphere where the family can gather around a well-set table and enjoy a delightful meal - perhaps a delicious tapas arrangement. This season, we introduce a brand-new rustic earthenware range in a fantastic reddish-brown colour that completes the cosy ambiance at the table.

Furthermore, we expand our UNIQUE range with new functional wooden furniture, featuring a simple and charming appearance. Among other things, you can also explore a range of new cushion covers with coarse-woven and plush textures, adorned with lovely fringed and embroidered details, creating a relaxed bohemian expression.

The entire new collection exudes authenticity and warmth, offering exciting new textures and plenty of natural materials - so be inspired by the many fantastic novelties of the season, which evoke the perfect autumn and winter atmosphere!

Enjoy the catalogue and see you again soon.

# Tablesetting & K

When we gather in the kitchen to enjoy a meal together, it means a lot to have a beautifully set table and the right evocative atmosphere. With charming plates, bowls, and serving trays in rustic earthenware, you can create a warm and down-to-earth ambiance at the table - where cosiness takes centre stage and there is time for togetherness.

# Charm

AND PERSONALITY

The earthenware range 'Rustique' evokes thoughts of a rustic and charming country kitchen, where cosiness is the focus and where there is time for togetherness. When family and friends gather around the table for a delicious breakfast, lunch, or a light tapas meal, the beautiful earthenware range helps create a warm and authentic atmosphere. The range has a lovely reddish-brown colour and a fine glossy glaze - and it is partially handmade, which gives it extra charm and personality.

# SOURDOUGH BUNS

BY FRIDA HENSEL FRIDA HENSEL

## METHOD

### SOURDOUGH

Mix 100 g active sourdough with 100 ml water and 100 g all-purpose flour until it forms a smooth mixture. Let the sourdough rise to double its size on the kitchen counter, which takes about 1-3 hours.

## INGREDIENTS

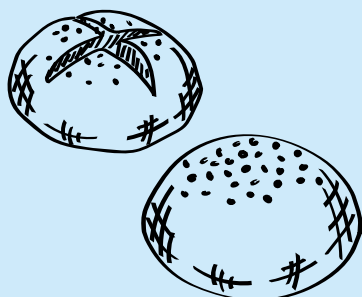

200 g spelt flour  
80 g whole wheat flour  
400 g all-purpose flour  
600 ml cold water  
15 g salt

### DOUGH FOR SOURDOUGH BUNS

Combine water and flour in a bowl and mix well. Let it rest at room temperature for one hour. Add half of the sourdough and salt to the dough. Stir the dough together thoroughly, either using a wooden spoon or a stand mixer, for a few minutes. It's important for the dough to be soft, so do not add any extra flour. Cover the dough and fold it every half hour for 2 hours, using damp hands. Let the dough rise for an additional hour. Then, place it in the refrigerator to cold ferment for 8 to 16 hours.

### BAKING

Shape the buns using a spatula or two spoons. The recipe makes around 10-14 buns. Optionally, coat the buns with poppy seeds, sesame seeds, or flour. Just before placing the buns in the oven, pour a small glass of water into the bottom of the oven to create steam during the initial baking. Bake the buns at the highest temperature setting for about 20 minutes and let them cool on a rack.

# APPLE JUICE

## WITH A TWIST OF GINGER

---

### INGREDIENTS

FOR 2 PEOPLE

7-8 apples  
20 g ginger

### METHOD

Wash the apples and check for any bruises if you are using fallen apples - if so, cut off the bad parts and halve them. Get your juicer ready and juice the apples together with the ginger. If you are using organic ginger, you don't need to peel it. Now you have a delicious fresh apple juice with a hint of ginger.

# Mynte® MANY WAYS

Mynte® textile is durable and made of 100% cotton with a fine, homemade look. Towel, dish cloth and pot holder have many uses and are available in a multitude of beautiful colours.

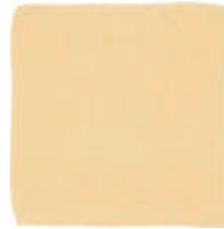

The knitted dish cloths are also great as napkins when setting the table. Or as wash cloths in the bathroom. The towel can be used in the kitchen or in the bathroom, as fine guest towels. And the stylish pot holders - knitted in double yarn - protect your fingers, but can also be used as table trivets.

# Decor & Lights

It is often the small details that make the difference - especially when it comes to home decor. And when you want to create cosiness during the autumn and winter months, you can use lit candles in elegant candle holders, ceramic houses, decorative lanterns, and beautiful glass vases to add the finishing touch.

# Charming CERAMIC HOUSES

Our ceramic houses are a charming addition to the decor and a favourite among many. The new ceramic houses have stunning natural earth tones and burnt colour shades - perfect for cosy autumn and winter moments. Particularly noteworthy is that some of the houses have a matte, raw surface on the facade, which creates a beautiful interplay with the glazed roof and door.

## THE MOST BEAUTIFUL glass balloons

Imagine finding a French flea market or visiting a vineyard in Tuscany. There they are, the most beautiful glass balloons - slightly different in shape, height, and the way the belly of the glass balloon varies slightly. It's rare to find glass balloons in as many beautiful colours as you see in the photos, and rare that you experience them all at once.

# Taper CANDLE

# CANDLE light

Paraffin is less sooty: A paraffin candle burns less per hour compared to a stearin candle. The wick is thinner, as the melting point of paraffin is lower. So, no doubt, a paraffin candle contaminates less than a stearin candle.

Significantly less dye: In a through-coloured candle, significantly more chemically produced dye is used than in a candle, in which only the surface is over-dipped. That is why all our Diederich candles are over-dipped.

# Textiles

With cushions, throws, quilts, and fur made of natural materials, we can create a warm and relaxing atmosphere in the living room, bedroom, and other rooms of the home. Here, we can lounge on the soft cushions, wrap ourselves in the cosy throws, and enjoy the coarse-woven and plush textures with delightful fringed and embroidered details.

## CUSHION COVERS WITH **a touch of bohemian**

Cushion covers with coarsely woven fabric, tufted structure, fringed edges, small embroideries, and delicate tassels, add a rustic and natural touch to the decor. The fabric's rough and plush texture, along with the fringed and embroidered details, creates a relaxed bohemian atmosphere. Combine these new covers with our solid-coloured covers in linen and velvet for a striking new look that adds warmth and character to any room.

# WINTER BATHING

## YOU WILL NEED

Towel  
Flip-flops or neoprene water shoes  
Bathrobe  
Thermos with hot coffee or tea

Winter bathing is the perfect energizer, and with an icy dip, you get the blood flowing and feel it in your body. Once you have accustomed yourself to the sensation of the cold water, the refreshing effect will become addictive. Winter bathing provides a sense of well-being that cannot be compared to anything else.

You can easily engage in winter bathing without being a member of a winter bathing club. It requires nothing more than a good towel or a warm bathrobe to quickly warm up, as well as a bathing companion.

If you prefer to warm up in a sauna or enjoy the invigorating effect of being able to go into the water multiple times, it can be advantageous to find a winter bathing club.

Winter bathing is more than just a cold dip. It is also a mindset that comes with leading an active life, and it is a fantastic way to be in nature - all year round, in all seasons, and in all types of weather.

Studies show that winter bathing is good for both the body and soul. When the body is submerged in water, it cools down extremely quickly, triggering the body's defences. The cold water activates the immune system while increasing the adrenaline level. The cold shock releases a combination of endorphins and adrenaline, which both stress the body but also leave a sense of happiness. Several winter bathers even experience feeling 'high' from these endorphins being released into the body after a dip in the waves.

HOWEVER, REMEMBER THAT WINTER BATHING CAN ALSO BE A DANGEROUS SPORT. FOLLOW THESE TIPS FOR SAFE WINTER BATHING:

Never jump into the cold water headfirst and consider wearing a hat.

Breathe calmly when entering the water - cold water can cause temporary shortness of breath.

Only take a short dip, for 5-10 seconds, in the cold water during your first attempts at winter bathing. Afterward, you can extend the duration of your dips as you wish. Most winter bathers don't exceed 20-40 seconds.

Put on warm clothing after bathing, and drink plenty of tea or other warm beverages.

Under no circumstances should you enter the water if you are under the influence of alcohol or feeling unwell.

Never bathe alone.

The water temperature  
should be 10 degrees  
or lower for it to be  
considered winter bathing.
